

College Management Unit:	UCD College of Health and Agricultural Sciences
School Unit:	School of Medicine
Post Title & Subject Area (if relevant)	Clinical Research Fellow (Respiratory Medicine)
Project:	“Sleep Revolution - A new way to diagnose and treat patients with suspected obstructive sleep apnoea”
Post Duration:	12 months duration
Line Manager	Professor Silke Ryan
Competition Ref. N^o	017002
HR Administrator	Martyna Wojcik
Garda Vetting	YES

Position Summary:

This is an exciting multicentre Horizon2020-funded project aiming to investigate the feasibility and validity of a novel pathway to diagnose obstructive sleep apnoea utilizing innovative digital technologies.

The successful applicant will play a major role in this project by leading a randomized controlled trial investigating this novel treatment strategy in obstructive sleep apnoea in our centre.

The post offers an exciting opportunity to gain experience in translational and clinical research.

This post will be located between Belfield and St Vincent’s University Hospital.

Principal Duties and Responsibilities:

- To participate in the execution of a clinical study under the mentorship of the lead principal investigator
- Recruitment and retention of subjects in the study
- To monitor patients safety
- To participate in the data management and analysis of the study
- To manage the day-to-day logistics of the clinical study
- To support laboratory experiments of the study

Salary Range: €63,100 - €74,300 per annum*

Appointment on the above range will be dependent on qualifications and experience
